Professional Summary

Motivated Computer Science undergraduate seeking an entry-level Software Developer position as a Full Stack, MERN Stack, Front end, or Backend Developer to apply technical skills, solve real-world problems, and grow as a software professional.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Vignan's Foundation for Science, Technology & Research

Expected Graduation: 2027

Current CGPA: 7.86

Intermediate

Sri Chaitanya Junior College with an overall score of 85%.

Matriculation

Oxford High School with an overall score of 100%.

Skills

Programming Languages: Python, Java (Basics)

Front end Technologies: React.js, React Native

Backend Technologies: Node.js

Web Technologies: Representational State Transfer (REST) APIs, Web Sockets

Databases: MongoDB, MySQL

Development Tools: Git, GitHub, VS Code, Postman

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS

Professional Projects

Safe Chat AI

Technologies: MongoDB, Express.js, React.js, Node.js (MERN Stack), Machine Learning, Natural Language Processing

Role: Team Leader Team Size: 4

- Developed an AI-powered content moderation platform using Machine Learning and Natural Language Processing (NLP) to identify and filter inappropriate messages.
- Built a full-stack MERN application with secure user authentication, REST APIs, Node.js backend, Express.js server, and MongoDB database.

Notification App

Technologies: React Native, REST APIs, Push Notifications

Role: Developer

- Build a cross-platform mobile application using React Native for real-time notification delivery.
- Implemented push notifications, user authentication, and REST API integration to improve application functionality and user experience.

Inventory Management System

Technologies: MongoDB, Express.js, React.js, Node.js (MERN Stack)

Role: Individual Developer

- Designed a web-based inventory management system using the MERN Stack for inventory and stock management.
- Implemented CRUD operations, secure authentication, MongoDB database integration, and REST APIs for efficient data management.

Publications

- IEEE Conference Publication: **Machine Learning-Based Weather Forecasting** – Main Author.

Certifications

- Python (Basic), HackerRank
- Software Engineer, HackerRank
- Google Cloud Cybersecurity
- SAP S/4HANA Cloud Private Edition: Sourcing & Procurement
